CAREER OBJECTIVE

Highly motivated first-year College of Industrial Technology student majoring in Computer Technology. Passionate about software development, computer-aided design, and modern technology. Eager to leverage foundational academic knowledge in HTML, CSS, JavaScript, and CAD to build practical skills. Committed to continuous learning and working towards landing a fulfilling technical role in the industry upon graduation.

EDUCATION

College of Industrial Technology

Present

1st Year Student – Computer Technology

- Focusing on foundational principles of computer technology, programming, and computer-aided drafting.
- Actively developing technical skills through coursework and independent practice to prepare for future industry demands.

TECHNICAL SKILLS

Web Development

HTML

CSS

JavaScript (JS)

Computer-Aided Design & Engineering

AutoCAD

Siemens NX

Tools & Software

Visual Studio Code (VS Code)

ACADEMIC FOCUS & UPCOMING PROJECTS

As a dedicated first-year student without prior professional experience, I am currently focusing on:

- Building responsive web pages using HTML, CSS, and JavaScript.
- Designing 2D/3D models and technical drawings utilizing AutoCAD and NX.
- Familiarizing myself with modern code editing environments like VS Code.
- Preparing to take on hands-on academic projects to build a strong portfolio before entering the workforce.
